

Manager

Rating	Exceptional Year
Rating Description	All the following characteristics apply to this rating: - Performance regarding behavior, contribution and development are both within as well as outside the role visible and successful with a significant impact (not only within the team and/or department but also beyond, for overall bank results, for customers, as professional and/or leader, where this is not standard part of the role/function). - Employee growth is visible and successfully displayed both within as well as outside the current role/function. - Exceeds set goals (i.e. achieved more than 100%) and is role model regarding behavior, contribution and/or development within the department or domain.
Comment	Jonathan had an exceptional year in the Management reporting function and supporting the NA next transformation, primarily on KPI reporting. He embraced the critical NA Next reporting deliverable, sustaining momentum and driving it through to completion (including presenting on Steerco to local senior management). Jonathan is a hard worker, smart and has a structured approach to scale our Business Control services by using Data Analytics mindset. Different deliverables can also prove that (such as: Badging report, Engencia etc). He takes a risk based approach to his role and thinks about impact to the organization There are a few areas where Jonathan still needs to be developed. Continue to build rapport with Rural stakeholders (John and his leadership team), NA CFO (Bill Chester) and other NAET members (Adrian, Shawn etc), with a focus on actionable value. Increase collaboration with key HO stakeholders in NL (e.g., Jakob de Vries, Matthijs, Richard etc) through bilateral meetings to build alignment and visibility. A robust communication channel between regional BC and HO BC team is essential for overall success. Continue to strengthen leadership behaviours, particularly those expected of a "People manager". Leading by example—through openness, empathy, and curiosity—can inspire and guide others effectively. Additionally, as a senior BC leader, regular presence in the St. Louis office (minimum 3 times per week) is important to foster team engagement and ensure consistent leadership visibility.

Employee

Rating	Successful Year
Rating Description	All the following characteristics apply (in greater and lesser extent) to this rating: - Performed according to expectations or slightly above, with successful results in terms of contribution, behavior, and development for oneself and the team/department. - Employee growth within current role/function is shown in a sufficient or proactive manner. - Meets set goals (achieved 100%**), potentially in 1 category (behavior, contribution or development) additional results.
Comment	I was promoted this year to Rural Business Control Manager and from a grade 9 to a grade 10. I believe this is an indicator that I've had a successful year in 2025. While I was in Management Reporting, I've continued to add value by creating new and enhancing existing Power BI content as well as facilitating

my team members with their reporting and automation deliverables. I navigated the transition of two people in Management Reporting and am also successfully transitioning my work to my replacement.

In my new role, I am starting to add valuable insights as well as getting involved with putting together the 2026 Budget. I'm meeting with Rural stakeholders regularly, and I'm presenting in the SteerCo on topics such as the Rural KPIs and Cost and FTE Savings.
